

# Clifton Cameras Product Specification

## Ricoh Theta Hard Case TH-3

### Specifications

Compatible models: RICOH THETA X, RICOH THETA Z1, RICOH THETA SC2\*6

Dimensions: Approx. 81 × 81 × 211 mm (W × D × H)

Weight: Approx. 209 g

### Notes:

- The case cannot be used for shooting underwater. The case is waterproof when no USB cable is connected and all openings where the USB cable passes through are closed.
- Shooting with the case attached will result in a lower image quality than shooting without the case.
- When a USB cable is connected, water droplets and dust may enter from the USB cable connection point.
- It is not guaranteed that the camera will work correctly when using a USB cable other than the one provided with the product.
- When performing live streaming with RICOH THETA X with the case attached, use the latest firmware for RICOH THETA X and set "Auto switching to live streaming" to ON.
- The USB cable provided with RICOH THETA SC2 cannot be used because it has a ferrite core that interferes with the opening where the cable passes through.
