

# Clifton Cameras Product Specification

## Celestron PowerTank Lithium

### Specifications

Battery Capacity:	84.4 Wh
Charging Input:	16VDC @ 2000mA
Charge Time (from flat):	4 hours
Telescope Power Port:	12VDC @ 3000mA, Tip positive
Car Battery Adapter Port:	None
USB Charging Port 1 Output:	5VDC @ 1000mA
USB Charging Port 2 Output:	5VDC @ 2100mA
Auto Shutoff Threshold Current:	(12V Port) - Less than 250mA for a long period of time
Operating Temperature:	-4°F - 140°F (-20°C - 60°C)
Light Panel:	Red or White with two brightness settings for each color
Weather Proof/Dust Proof:	IP-65 rating
Telescope Power Cord:	6.5 ft (2 m) with connector for Celestron telescopes
Strap:	2" wide hook and loop strap for attachment to tripod leg and a 10" hanging strap
Product Dimensions:	190.5mm x 76.2mm (7.5" x 3")
Product Weight:	2.25 lbs (1.02 kg)
Included Items:	Battery pack   AC mains charger   Power cord for Celestron telescopes   Strap for attaching to tripod   Strap for hanging
