

# Clifton Cameras Product Specification

## Peak Design Mobile Wireless Charging Stand

### Specifications

<b>Dimensions</b>	Folded Flat: 14.1cm x 6.9cm x 1.6cm (5.6" x 2.7" x 0.6")  Each side of stand is 0.5cm (0.2") thick  Charging Pad: 5.5cm x 5.5cm (2.2" x 2.2")
<b>Weight</b>	276.4g (9.74oz) (stand without charging cable)  43.5 (1.52 oz) (charging cable)
<b>Materials</b>	Machined/anodized aluminum body and mounting head  Grippy silicone mounting pad & base pads with Tinuvin 770 UV-stabilizer  PVD coated stainless steel hardware  High-temp neodymium mounting magnets
<b>Wireless Charging Stand</b>	Proprietary magnetic charging architecture contains custom-engineered components to optimize charging speed  Supports all standard power profiles (15W/10W/7.5W/5W) as well as other profiles up to 15W max  Charging output automatically adjusts to device profile  Input: Min 20W (12V 1.67A) for optimal power delivery  Aluminum housing dissipates heat to improve charging speed
